	household type*	Adults: Households where all people are at least 18 years old at point in time	counts by living situation, system flow
household filters		Households with Children: Households where there is at least one minor	System now
		under 18 years old and one adult at least 18 years old Individual Minor: People less than 18 years old without any adults over 18	
		years old in their household	
	veteran household	Households with at least one veteran. Per HMIS standards, a veteran is anybody who has served, regardless of discharge status.	counts by living situation, system flow
	TAY household*	Households headed by someone aged between 18 and 24 years old	counts by living situation,
		(inclusive). Examples: a 20 year-old individual, or a 24-year old parent with children [who are under 18].	system flow
	race	Racial identity. Person may decline, or select multiple options (multi-racial).	counts by living situation, system flow
	age*	Age group at point in time. People with unreported age included only when	counts by living situation,
	ethnicity	full range (0-120) is selected. Client identfies as Hispanic or non-Hispanic, independent of racial idetity.	system flow counts by living situation,
client filters	-	Optional.	system flow
	gender	Gender idenity selected by client (categories defined by HUD/HMIS data standards)	counts by living situation, system flow
	disabling condition	Person has identified as having a long-term disability that creates barriers to living independently	counts by living situation, system flow
	* For system flow, these filters are fixed	· · ·	
latest counts	experiencing homelesness	People known to the Sacramento Homeless Response system and in need of services and/or housing to assist in resolving homelessness (living in an	all
		emergency sheltered or place not fit for habitation, like in a car or on the streets).	
	housed	People who founds stable housing after engaging with or seeking services.	all
		This may include:	
		- Finding a stable housing opportunity while working with a program and	
		letting the service provider know upon departure (sometimes the program	
		had a direct hand in finding the opportunity, sometimes they were providing other types of assistance)	
		- Becoming housed in an HMIS-participating program providing stable housing	
		-	
	sheltered	People who are receiving temporary shelter for people experiencing homelessness (namely, emergency shelters or transitional housing). This	all
		includes people enrolled in HMIS in these program types, or who left another program to go to a shelter or transitional housing.	
	unsheltered	People who are not sheltered. They are not in housing or shelter and have	all
		had contact through outreach or a social service program or exited a homeless system program to a place not fit for habitation, such as a car or	
	unknown living situation	the streets. People who were recently engaged and indicated they're experiencing	all
	unknown nying situation	homeless, but it's been over 90 days since confirmed contact or we lost	aii
counts by living situation		touch, so we're uncertain if they are still in need of assistance. This category also includes people with who do not share their living situation. People can	
		stay in an 'unknown' stage for up to 90 days.	
	average days current episode	The average length of time a person has been experiencing homelessness	all
		relative to the end of the period. It is calculated based on the most up-to-	
		date self-reported information available in the Homeless Management Information System (HMIS). People who are no longer experiencing	
		homelessness at the referenced point in time are not included in these calculations.	
	entering homelessness	People who engaged in HMIS-participating services targeting people	system flow
		experiencing homelessness between the previous snapshot and the current snapshot. This does not refer to the date they actually became homeless,	
		but rather the date the engaged - or re-engaged - with services.	
	entering: new	people who engage with services entered into HMIS for the first time or who	system flow
		re-engage after having left homelessness (be either lost contact or finding housing) two or more years ago.	
	entering: previously housed		system flow
		housing) two or more years ago. People who re-engaged with service providers after leaving to stable housing within the last two years People who re-engaged with service providers after having lost contact or left	
		housing) two or more years ago.
