Informational

Rolf mentioned the HMIS team is looking to expand capacity for customer service and long term goal of system improvement; doing so there have been some SSF staff updates which included Wendy Huynh (HMIS Manager) and Kai Koumatos joining the SSF team. Tina Wilton (HMIS Manager) will be taking leave and once she returns she will be moving into a specialty role. The team will be rounded out with one more new hire soon to come. Please see the meeting recording for more details.

V. HMIS License Fee Structure Update

Rolf Davidson

10:55 AM
(5 minutes)

Informational

Rolf discussed fees for the usage of HMIS. The growth of the program has outstripped the HMIS grant which limits the ability to bring on more staff. SSF would like to protect non profits and don't want to move towards a 1:1 license structure. Data quality metrics are still being developed. There would be a threshold and would have a tiers. It will be a big change as they engage with organizations having the opportunity to weigh in for budgets. Questions asked, please see chat and recording for details.

Tina Wilton,
HMIS Manager

11:00 AM
