

Coordinated Access System (CAS)

CAS

The Sacramento City and County Continuum of Care, City of Sacramento, and County of Sacramento recently pooled resources to invest \$16 million to create a Coordinated Access System aimed at ensuring people needing services have streamlined and clear paths to go through to access the right help. This investment will ensure that help is more equitable, expedient, and easier to find by our unhoused neighbors.

What is the Coordinated Access System?

A streamlined system designed to match people experiencing homelessness with housing and service options. This process also prioritizes limited local supportive housing resources, so people with the highest vulnerability can be connected to supports as quickly as possible.

CORE ELEMENTS:

Access, assessment, problem-solving, prioritization, and referral

DATABASE:

Homeless Management Information System (HMIS)

KEY PLAYERS:

Access points, outreach/advocates, shelters, service providers, and housing programs

REFERRAL ENTITY:

2-1-1 operated by Community Link and supported by Sacramento Steps Forward

What Can We Accomplish Together Through the Coordinated Access System?

STOP
homelessness
before it
begins

SHORTEN
the time people
must wait to be
assessed

STREAMLINE
access for people
experiencing
homelessness

OPTIMIZE
existing shelter
and housing
programs

FORGE
a cohesive and
coordinated homeless
system of care

Why Do We Need a Coordinated Access System?

✘ Navigating the current system is confusing and difficult to access for people seeking resources:

- **60+ access points** each with unique services and eligibility criteria
- **One third of shelters** require a referral

✘ Sacramento's continued rise in homeless is evidence that our current model is not working:

- Local gaps analysis suggests an estimated **16,500 to 20,000 people** will experience homelessness annually in Sacramento
- **More than half** who enter the system are likely to experience homelessness for the first time

How is this data collected? The homeless management information system (HMIS) is a locally administered database that captures client-level data and data on the provision of housing and services to homeless individuals, families, and persons at risk of homelessness. HMIS improves service access and delivery and strengthens community planning and resource allocation.

HOUSING CRISIS LINE

The Housing Crisis Line (2-1-1) connects households seeking housing and homeless resources to appropriate resources.

CALLS HANDLED: 5,711

HIGHEST REQUESTS BY ZIP CODE: 95811, 95823, 95815

AVERAGE CALL WAIT TIME: 7:54

AVERAGE CALL HANDLE TIME: 11:40

Referrals to CAS Resources

HOUSEHOLDS REFERRED TO SHELTER: 452

- **19%** (452/2364) OF HOUSEHOLDS ASSESSED WERE REFERRED TO A SHELTER IN THE LAST 90 DAYS
- AVERAGE LENGTH TIME TO GET REFERRED TO SHELTER: **14 DAYS**
- AVERAGE LENGTH OF TIME FROM SHELTER REFERRAL TO SHELTER INTAKE: **1 DAY**
- **75%** OF REFERRALS RESULTED IN A SHELTER ENROLLMENT

Shelter Assessments by Agency last 90 days

CAS RESOURCE CONNECTIONS

With the addition of CAS resources, 2-1-1 can triage and refer households to participating shelters, problem-solving access points (PSAPs), shelter navigation, and conduct housing assessments

HOUSEHOLDS TRIAGED: 1,736

ASSESSMENTS COMPLETED: 1,380

SHELTER REFERRALS: 452

PSAP REFERRALS: 175

CAN REFERRALS: 399

Length of Time from Assessment to Shelter Intake

NAVIGATION

Elica Health Centers manages a team of trained, coordinated access navigators (CAN) who provide shelter and housing problem-solving to eligible households referred by 2-1-1.

HOUSEHOLDS REFERRED TO CAN: **399**

- **66% (265) OF REFERRALS RESULTED IN A PROGRAM ENROLLMENT**
- **AVERAGE TIME FROM REFERRAL TO ENROLLMENT: 2 DAYS**
- **45% OF EXITS WERE POSITIVE**
 - **12 HOUSEHOLDS EXITED TO PERMANENT HOUSING**
 - **NINE HOUSEHOLDS EXITED TO TEMPORARY HOUSING**
 - **52 HOUSEHOLDS EXITED TO AN EMERGENCY SHELTER**

CAN Program: Household Exit Destinations

EMERGENCY SHELTERS

In Q1 of 2023, CAS-participating shelters had a **93% bed utilization rate**. Bed utilization rates have improved for CAS-participating shelters pre-CAS vs. now.

PROBLEM SOLVING ACCESS POINTS (PSAP)

Designated access points provide problem-solving services to divert or rapidly exit households from homelessness, including access to financial assistance.

HOUSEHOLDS SUPPORTED IN ACQUIRING OR MAINTAINING HOUSING: **190**

AVERAGE AMOUNT PER HOUSEHOLD: **\$2,897**

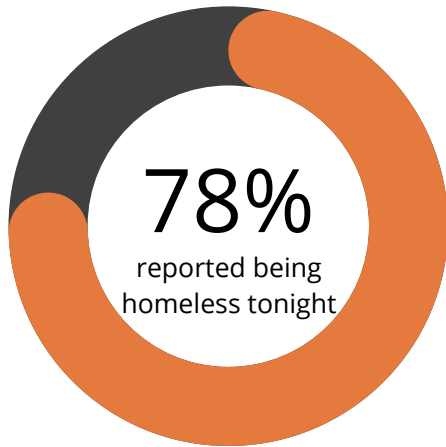

Q1 EXPENDITURES: **\$550,515**

95% of clients remained housed

Six months after assistance was given

HOUSEHOLDS SERVED

The number of households served includes enrollments and/or services provided by 211, problem-solving access points, and the navigation team. Although some services prevent or divert someone from experiencing homelessness, most households served are already experiencing homelessness.

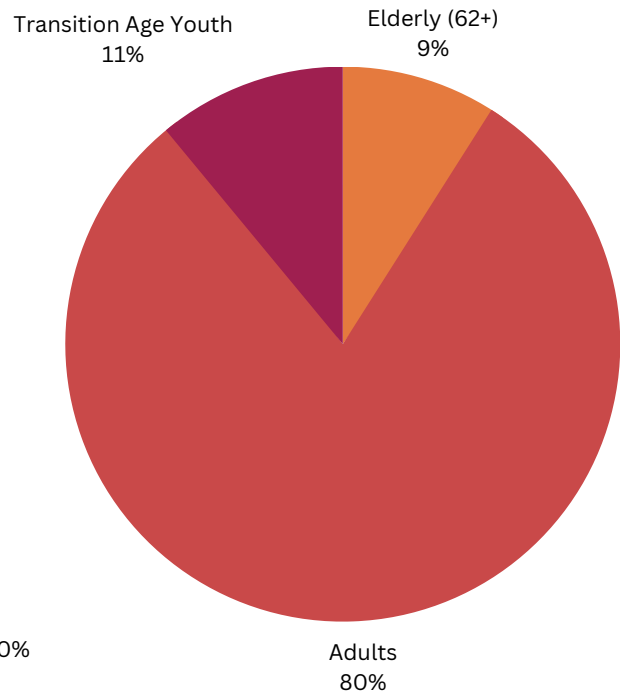

1,721 households served

56% of households are female-identifying

- 17% (298) ARE AT IMMINENT RISK OR AT RISK OF EXPERIENCING HOMELESSNESS (WITHIN 30 DAYS)
- **293 HOUSEHOLDS WERE DIVERTED FROM HOMELESSNESS BY 2-1-1 STAFF**

Race

Household Type
