eLOCCS	<ul style="list-style-type: none">4B Grant Spenddown4C Quarterly Drawdowns

Review and Ranking Process

Reallocation

- HUD expects CoCs to reallocate funds from non-performing or under-performing projects to higher priority community needs that align with HUD priorities and goals.
- Sacramento CoC has identified a need for additional permanent housing, with targeted services for youth, seniors, or individuals with conditions contributing to higher risk of COVID-19 infection.
- To encourage voluntary reallocation, existing projects may convert their project to permanent housing or another eligible new project type and be given the first option in accessing the funds reallocated from their existing project.

Q & A
