

Sacramento's All In Action Plan

The Sacramento community is working on the next phase of our All In Action Plan to prevent and resolve homelessness: the Regionally Coordinated Homelessness Action Plan (RCHAP). Since the adoption of Sacramento's Local Homeless Action Plan (LHAP) in 2022, we have made notable progress yet there is much more work necessary to meet our goal of making homelessness in Sacramento rare, brief, and non-recurring. This next phase of work continues the commitments made in past planning efforts while expanding and deepening the change we are making in our community.

BACKGROUND

The LHAP, established in 2022, set key benchmarks for preventing and quickly resolving homelessness, meeting state funding requirements and fostering a unified, cross-jurisdictional approach. Developed in partnership with SSF, the City and County Continuum of Care, Sacramento County, the City of Sacramento, and SHRA, it outlined strategies based on the most recent gaps analysis and needs assessment.

THE NEXT STEP

In December 2023, Sacramento Steps Forward, Sacramento County, and the City of Sacramento initiated the expansion of the All In Action Plan, involving all municipalities in Sacramento County. Key players, including staff and leaders from each city in the county, individuals with lived expertise, housing and homeless service providers, and community partners from various sectors such as education, behavioral health, child welfare, and justice systems, are sought for their input. This collaborative effort aims to ensure a comprehensive regional approach. The plan, to be submitted to the state in March, opens avenues for Homeless Housing, Assistance, and Prevention (HHAP) funding and allows for the integration of current data and community insights.

GETTING INVOLVED

The CoC and the City and County of Sacramento are hosting a series of "All In Sacramento" public meetings where your input is needed! In-person workshops and engagement sessions are scheduled in December and January.
